## SUMMARY

Front-end Developer experienced in building SaaS, CRM, CMS, and corporate web apps. Proficient in React, Next.js, Vue, and Angular, with back-end skills in Express.js and MongoDB. Focused on delivering scalable, user-centered solutions.

## SKILLS

Front-end:

React, Next.js, Vue, Nuxt.js, Angular

Back-end:

Node.js, Express.js, Nest.js, MongoDB

Other:

Git, REST API, HTML, CSS/SCSS, JavaScript, TypeScript

## EXPERIENCE

### Front-end Developer

Toprak Rehberi

October 2024 - Present, Samsun, Türkiye

- Developed a real estate platform including a user-facing website and a complex CMS/CRM panel.
- Built a web application enabling users to sell their own plots.
- Worked on front-end tasks to ensure a seamless user experience.
- Collaborated with the team to maintain efficient workflows and high-quality code.

### Frontend Developer

ANDRE.ai

July 2024 - June 2025, Geneva, Switzerland

- Contributed to a SaaS application that extracts stories and charts from uploaded data files.
- Implemented front-end features and collaborated closely with team members.
- Assisted in optimizing data visualization and user interaction.
- Ensured smooth integration of front-end components with back-end systems.

### Frontend Developer

Naylalabs

December 2022 - March 2024, Samsun, Türkiye

- Developed CMS, CRM, and SaaS applications as part of a web agency team.
- Coordinated with both front-end and back-end teams on multiple projects.
- Learned and applied clean architecture, modular architecture, and various design patterns on the senior-led projects.
- Gained mentorship from a senior developer to improve coding standards and workflow.

### Intern Front-end Developer

Global Media

April 2022 - December 2022, Samsun, Türkiye

- Worked with pre-built corporate web scripts to create new themes.
- Developed small-scale CRM applications during internship projects.
- Gained hands-on experience in front-end development workflows.
- Learned practical team collaboration and project delivery processes.

## NOTABLE PROJECTS

### **Tekliflesat (Nuxt.js)**

Freelance · [tekliflesat.com/](https://tekliflesat.com/)

- Built a land trading platform where users can list properties and receive offers.
- Implemented a flow to accept, reject, or request new proposals.
- Delivered a fast, intuitive user experience using Nuxt.js.

### **Onboarding App (React, Express.js, MongoDB)**

Freelance · [onboarding.mycomp.ch/](https://onboarding.mycomp.ch/)

- Full-stack app managing onboarding/offboarding/order with ~7 role-based workflows.
- Added employee order management features for resources and equipment.
- Developed with React front-end and Express.js + MongoDB back-end.

### **Sales Sense (Angular, CRM)**

Naylalabs · [sales-sense-web.vercel.app](https://sales-sense-web.vercel.app)

- Developed a CRM system for surveyors to input door-to-door statistics.
- Worked collaboratively with the team on a large-scale, complex project.
- Focused on building scalable and maintainable Angular components.

### **WorkWear360 (Next.js)**

Naylalabs · [workwear360.net/](https://workwear360.net/)

- Built a laundry management platform using Next.js.
- Applied clean architecture, functional programming, and multi-language support.
- Delivered a modular, efficient, and globally accessible application.
